## PROFESSIONAL SUMMARY

Software Developer with 4 years of experience building mobile and web applications. Specialized in Flutter, React, and Node.js to deliver scalable, high-performance solutions with clean, maintainable code across full-stack environments.

## TECHNICAL SKILLS

Languages: JavaScript, Dart

Frameworks/Libraries: React, React Native, Flutter, Vue.js, Node.js, NestJS

Databases: MongoDB, Firebase

Core Competencies: Full-Stack Development, Mobile App Development, REST APIs, Scalable Architecture

## PROFESSIONAL EXPERIENCE

Full Stack Developer — Blue People | 2024 – Present

Design and develop scalable web and mobile solutions using React, React Native, Node.js, and Vue.js, focusing on clean architecture, maintainable code, and performance optimization while collaborating with cross-functional teams to deliver production-ready products.

Flutter Consultant — Nubelity | 2024

Provided technical consulting and hands-on training in Flutter development, guiding teams in best practices for architecture, performance optimization, and deployment across real-world applications.

Mobile Developer — 1ero Trader | 2023 – 2024

Developed and maintained a real-time stock market tracking application using Flutter and Node.js, improving reliability, performance, and user experience through efficient state management and API integration.

Frontend Web Developer — CCEO Software Development | 2021 – 2022

Built responsive web interfaces primarily using React while supporting backend integrations with Node.js, contributing to production-ready features with a focus on usability and performance.

Full Stack Developer — Freelance | 2021 – 2024

Delivered end-to-end solutions including delivery platforms, marketplaces, and dashboards using React, Flutter, Node.js, MongoDB, and NestJS, managing the full development lifecycle from requirements to deployment.

## EDUCATION

Bachelor's Degree in Software Engineering — Universidad Autónoma de Aguascalientes | 2019 – 2024
